Corps Buffalo Mountain KCH Ch 4 comments 3-18-13.docx

Cliff - I think it is probably a good idea to be shorter and emphasize the overall points with less detail. Attached is my quick attempt to do that. I am by no means wedded to this - is just a quick attempt to move this way.

If we get more time from the calls tomorrow we won't be sending most likely, but probably a good idea to get a letter ready just in case.

Not sure about all the detailed comments - have not read.

Thanks

C

**Subject:** King Coal Highway/Buffalo Mtn Draft Comments

Attached is a draft set of comments that tries to incorporate input from many corners!

I'm sure it needs more work, and we can take another stab at polishing it after today's meeting, with the intent of having a final product by COB Monday.

Note that we have not had a chance to have OAR review the air quality comments (Randy – can you have your Air folks contact OAQPTS for a quick look?)

Thanks.
